Shape of Shells.
"Modern long-range shells are cigar-shaped. They taper both at the front and at the rear. This tapering of the rear end is called 'boat-tailing.' You have noticed that racing automobiles have torpedo-shaped sterns. A square-tailed shell or automobile is actually held back at high speeds because of the vacuum created behind it by the velocity of its movement. Tapering the tail leads the air gently and easily into the hole that the shell or the racing car bores in the atmosphere and thus lessens vacuum's impeding grip on the flying object."—Everybody's Magazine.

The Chipmunk.
The chipmunk is a provident little chap, and stores up a prodigious quantity of food, sometimes a peck or more of nuts and grain; and when snugly hidden in his winter burrow, the mouth of which he closes when the cold season arrives, a hard winter has no terrors for him. His enemies, the hawks, owls and weasels, may go hungry, but safe in the bosom of mother earth, with the warm mantle of snow above him, the chipmunk passes a cozy winter, in the midst of comfort and plenty, dreaming of the time when the south wind will blow and the squirrel cups shall open once more.—Boys' Life.

WORLD'S RECORD

BROKEN BY TANLAC

Over Four Million Bottles Sold in 1919—the Fifth Year of Its History.

Tanlac has brought a new romance to the commercial world. It is the story of an acceptance and appreciation of merit never before attained by a proprietary medicine. Staid business men to whom the actual figures of the production of Tanlac have been presented have scouted them until the proof was shown. The production of Tanlac now stands at the rate of almost four million bottles per year. The exact figures are 3,928,800. The sale of a million bottles in the first nine months, which far exceeded any record ever made by a proprietary medicine, now seems insignificant.

OVER 17,000 BOTTLES A DAY.

The sale for the first ten weeks of last year amounted to over One Million bottles, an average of over one hundred thousand bottles per week, which is at the rate of more than seventeen thousand bottles per day, and the total sales for 1919, the fifth year of Tanlac's history, was more than four million bottles. It seems almost incredible, but these are actual figures and such is the record established by this wonderful medicine.

"One firm alone," said Mr. G. F. Willis, the international distributor of Tanlac, "has given orders for a total of 150,000 bottles within eighteen months' time. The firm I refer to is the Spurluck-Neal Co., of Nashville, Tenn. Mr. C. S. Martin, president of this great firm, who is also president of the Southern Drug Jobbers' association, will verify this statement."

"Tanlac is the result of many years of arduous study by Mr. Cooper and his principal chemist. In fact, the two of them have carefully watched its development from the beginning of the experimental stage to its present state of efficiency. So remarkable have been the results obtained from this medicine that I doubt seriously if either of these men realize the immensity of their success. Like many other great discoveries, it has required time to prove its far-reaching effects."

JACOBS PHARMACY CO.

Tanlac, the Celebrated Medicine Which Has Been Accomplishing Remarkable Results in the United States and Canada Will Now Be Sold in Bennington by W.

L. Gokay—Remarkable Sales Record of Sixteen Million Bottles Phenomenal and Unprecedented

Tanlac, the celebrated medicine which has been accomplishing such remarkable results throughout the United States and Canada, and which has been having a phenomenal sale wherever it has been introduced, will now be sold in Bennington by W. L. Gokay, the amazing success achieved by this medicine in only five years time is not only phenomenal, but unprecedented.

The discovery of Tanlac, the beginning of its manufacture, the establishing of the large and modern laboratories at Dayton, Ohio, occupying more than 60,000 feet of floor space, reads more like fiction than facts from latter-day commercial history.

Sixteen Million Bottles Sold in Five Years

Although placed on the market but little more than five years ago, over sixteen million bottles have been sold, and its sales record probably has never been equaled in the history of the drug trade in America.
